

## ERP solutions for Textile/Apparel

Lamp Software Pvt. Ltd  
Bangalore, India

To be successful in an industry characterized by changing customer demands and faster product cycles, it is important for textile products manufacturers, like you, to be connected, responsive and agile within, and across the extended enterprise. A right ERP solution and an able partner to implement and support it, make this possible. Leveraging our strong domain expertise in textiles business and unmatched technical skills, we provide integrated business applications for you. We integrate your processes and business systems, making information available in real time and increasing visibility across the entire value chain, thus ensuring that your enterprise is connected, responsive and agile.

ATOM is a suite of application software designed for the textile industry. If you are a manufacturer of Apparel, Silk products, Home Furnishing, Made-ups, or just fabric, then ATOM allows you to save costs, eliminate errors and stay ahead of your competition
